Bluestone Energy to Participate at Commonwealth Edison's Energy Efficiency Expo

Bluestone will demonstrate cost-effective energy solutions for today's facilities managers

Rosemont, IL – May 18, 2010 – Bluestone Energy Services, LTD., a leader in energy conservation engineering and project development services for industrial and commercial clients, announced today that it will have a booth at Commonwealth Edison's [2010 Energy Efficiency Expo](#) this week.

During the expo, Bluestone Energy will describe how equipment and process improvements can reduce energy consumption, thereby cutting costs for electricity and infrastructure maintenance and replacement. In addition, Bluestone will share its knowledge of the utility- and tax-incentive process and provide case studies from the [medical](#), [biotech](#), [retail](#) and [data center](#) sectors.

Recently, Bluestone Energy engineered and oversaw the replacement of over 9000 lighting fixtures at a Chicago-based hospital. The new energy efficient lighting technology significantly reduced the hospitals energy bill and will provide an ROI of less than two years.

“We are delighted to be a part of ComEd's Efficiency Expo,” said Ross Fairbanks, Manager of Bluestone Energy's Chicago office. “Over the last year, Bluestone Energy and ComEd have partnered on a number of projects, and we look forward to working together on many more in the near future.”

The Expo will take place on Wednesday, May 19th at the Donald E. Stephens Convention Center in Rosemont, IL. Additional information on the show can be found at <http://www.regonline.com/builder/site/Default.aspx?eventid=792731>

About Bluestone Energy Services

Since 1990, Norwell, Mass-based Bluestone Energy Services has been providing professional engineering and project development services for industrial and commercial clients. Bluestone is a leader in demand-side management (DSM) programs for large commercial and industrial customers. Having developed and implemented hundreds of lighting, HVAC and process energy conservation projects, Bluestone's engineers have secured millions of dollars in utility incentives for Bluestone's clients. Bluestone has worked with a wide array of companies including Boston Properties, Cabot Corporation and Stop & Shop Supermarket Company. Additional information on Bluestone can be found at <http://www.bluestoneenergy.com>.
