Bluestone Energy to Participate at National Grid's 2009 Energy Efficiency Expo

Bluestone will highlight cost-effective energy solutions for today's facilities managers

Albany and Buffalo, NY – September 23, 2009 – Bluestone Energy Services, LTD., a leader in energy conservation engineering and project development services for industrial and commercial clients, announced today that it will have a booth at National Grid's 2009 Energy Efficiency Expos in Albany and Buffalo.

During the two expos Bluestone will describe how equipment and process improvements can reduce energy consumption, thereby cutting costs for electricity and infrastructure maintenance and replacement. In addition, Bluestone will share its knowledge of the utility- and tax-incentive process and provide case studies from the industrial, biotech, retail and data-center sectors.

"We are delighted to be a part of National Grid's Energy Efficiency Expo," said Peter Fairbanks, President of Bluestone Energy. "Over the last decade, Bluestone and National Grid have partnered on countless projects, and I look forward to sharing with attendees some of what we have learned about making projects cost effective through utility and tax incentives."

"Over the last six months, Bluestone has seen a lot of growth potential in the Albany and Buffalo areas," said Adam Fairbanks, Bluestone's Vice President of Business Development and Engineering. "There is a tremendous opportunity to help companies here and around the country save money and go green."

Bluestone will be at booth #5 at the Buffalo Niagara Convention Center in Buffalo on October 7, 2009 and booth #52 at the Albany Marriott in Albany on October 9, 2009.
