**Bluestone Energy Moves Corporate Headquarters
To Accommodate Growing Staff and Operations**

Greater demand for sustainable facilities driving growth

Norwell, Mass – June 8, 2009 – Bluestone Energy Services, LTD., a leader in energy conservation engineering and project development services for industrial and commercial clients, announced today that they have relocated their corporate headquarters to accommodate recent growth and new hires.

The opening of Bluestone's new office continues the rapid growth that Bluestone has experienced over the last six months. Last November, Bluestone opened a Chicago office to handle growing business volume in the Midwest region, and in April, Bluestone acquired Bedford, Mass-based Control Solutions.

"I am extremely pleased and excited with Bluestone's growth. Both large and mid-size companies realize that sustainability not only reduces their impact on the environment, but can also significantly help their bottom line," said Peter Fairbanks, President of Bluestone Energy.

Despite the current recession, Bluestone has hired six new employees in the last six months and over the next two months plans to significantly expand its operation in New York and the Midwest through its Chicago office.

Recently, Bluestone completed a sustainable facilities project and secured \$600,000 in utility incentives for Dorchester, Mass-based Carney Hospital. The project will save the hospital over \$500,000 per year in energy costs.

Bluestone's new office provides three times more space and is located at 136 Longwater Drive, Norwell, Mass.

About Bluestone Energy Services

Since 1990, Norwell, Mass-based Bluestone Energy Services has been providing professional engineering and project development services for industrial and commercial clients. Bluestone is a leader in demand side management (DSM) programs for large commercial and industrial customers. Having developed and implemented hundreds of lighting, HVAC, and process energy conservation projects, Bluestone's engineers have secured millions of dollars in utility incentives for its clients. Bluestone has worked with a wide array of companies including Boston Properties, Cabot Corporation and Stop & Shop Supermarket Company. Additional information on Bluestone can be found at <http://www.bluestoneenergy.com>.
