Bluestone Energy to Participate at National Grid's 2010 Energy Efficiency Expo

Bluestone will provide participants with cost-effective energy conservation strategies

Buffalo, NY – June 7, 2010 – Bluestone Energy Services, LTD., a leader in energy conservation engineering and project development services for industrial and commercial clients, announced today that it will have a booth at [National Grid's 2010 Energy Efficiency Expo](#) in Buffalo.

The Expo will take place on June 9th at the [Buffalo Niagara Convention Center](#). Bluestone Energy will be at booth #33.

During the expo, representatives from Bluestone Energy will describe how equipment and process improvements can reduce energy consumption, thereby cutting costs for electricity and infrastructure maintenance and replacement. In addition, Bluestone Energy will share its knowledge of the utility- and tax-incentive process and provide case studies from the [industrial](#), [biotech](#), [retail](#) and [data center](#) sectors.

“We are looking forward to returning to National Grid's Energy Efficiency Expo,” said Peter Fairbanks, President, Bluestone Energy. “Bluestone Energy and National Grid continue to have a strong partnership, and I look forward working with them on additional projects in the Greater Buffalo area.”

“Since opening up our Buffalo office last year, Bluestone Energy has seen countless opportunities for low ROI conservation projects,” said Adam Fairbanks, Bluestone's Vice President of Business Development and Engineering. “National Grid's expo is the perfect opportunity for our team to share case studies with participants looking to save money and go green.”

Bluestone Energy representatives attending the expo will be Adam Fairbanks, Vice President, Engineering and Business Development; Gabriel Andreson, Director, Lighting Programs; Doug Case, Lighting Project Manager and Ariel Dorflinger, Marketing Manager.

About Bluestone Energy Services

Since 1990, Norwell, Mass-based Bluestone Energy Services has been providing professional engineering and project development services for industrial and commercial clients. Bluestone is a leader in demand-side management (DSM) programs for large commercial and industrial customers. Having developed and implemented hundreds of lighting, HVAC and process energy conservation projects, Bluestone's engineers have secured millions of dollars in utility incentives for Bluestone's clients. Bluestone has worked with a wide array of companies including Boston Properties, Cabot Corporation and Stop & Shop Supermarket Company.
